

ANISA NUR SEKAR ARUM

(+62)89507091827 | anisanursekararum@gmail.com | linkedin.com/in/anisa-arum | anisanursekararum.github.io

Detail-oriented and highly adaptive Quality Assurance Engineer with over 6 years of hands-on experience spanning E-Commerce, Fintech, ERP, and Logistical platforms. Proficient in designing robust E2E test strategies, building scalable UI/API automation frameworks (Cypress, Playwright, WebDriverIO), and optimizing testing workflows using AI integrations. Proven track record in leading cross-functional international teams, mentoring junior QAs, and establishing efficient testing SOPs in Agile environments.

Work Experience

SwipeRx - Quality Assurance Engineer

Remote

June 2024 - Present

- Formulated comprehensive E2E test strategies and test cases for Warehouse Management Systems (WMS), E-commerce transactional flows, and NetSuite/ERPNext Frappe ERP modules (Inbound, Outbound, POS, HR).
- Decreased test case creation time significantly by integrating AI utilities into the repository workflow, enabling the QA team to focus on efficient validation and rapid approvals.
- Developed and engineered a customized central control panel web tool that acts as the team's core hub for running manual and automated pipelines.
- Built and scaled UI automation frameworks using Cypress (POM) and Playwright, executing regression tests and debugging dynamic automation scripts across staging environments.
- Spearheaded QA operational efficiency by drafting standard testing SOPs, defining scope benchmarks, and leading high-impact sprints from backlog grooming to post-go-live production support.
- Mentored and onboarded associate QAs and interns while maintaining clear, direct cross-functional communication with international PMs, developers, and operations teams.

Abishar Technologies Placement Moladin - Software Development Engineer in Test (SDET)

Remote

Feb 2024 – June 2024

- Developed robust API automation frameworks using WebDriverIO with TypeScript, implementing Page Object Model (POM) architecture and complex SQL assertions to validate underlying Fintech/Loan Management data.
- Conducted intensive functional and API testing using Postman alongside thorough manual mobile app testing to verify critical application stability.
- Wrote SQL queries to manipulate databases, generating precise mock data structures required for rigorous validation pipelines.
- Managed defect tracking, reporting, and lifecycle documentation inside JIRA, utilizing Allure Report to present granular test results to the Engineering Lead and PMs.

Freelance

Remote

Sep 2023 - Feb 2024

- Conducted regression testing for KPK's website using QA Touch and Taiga.
- Managed and retested bugs for XL's Approval Management System.
- Designed and analyzed test cases for XL's Approval Management System.
- Developed bootcamp materials on QA fundamentals, GIT in Katalon, and API automation testing.

Nawa Data Solutions Placement Astra International - Software Quality Assurance

Remote

Sep 2021 – Sep 2023

- Owned and executed independent functional, UAT, and E2E testing pipelines for complex sales transaction and internal approval applications.
- Conducted rigorous database and backend validation using advanced SQL queries and SAP S/4HANA tracking, ensuring strict data synchronization.
- Initiated early-stage WebUI automation architectures utilizing WebDriverIO and verified API integration behaviors via Postman.
- Bridged technical communication gaps by collaborating directly with cross-functional team leaders, PMs, and Business Analysts to supervise deployment lifecycles from pre- to post-go-live.

Dans Multi Pro - Software Quality Assurance

Remote

Apr 2020 – Apr 2021

- Performed end-to-end (E2E) testing and critical bug tracking for three major web and mobile applications: 99% Usahaku E-Commerce, My Enterprise Access (MEA), and Sales Force Automation (SAFORA).
- Designed highly structured manual test cases tailored across development, staging, and integrated testing environments.
- Collaborated under the direct guidance of senior QA engineers to document defects in JIRA and execute manual API validation via Postman.
- Managed system verification for Magento environments, delivering polished feature deployments in alignment with PMs, BAs, and Telkomsel stakeholder requirements.

Education

Binus University

Graduated 2024

- Bachelor of Science in Information Systems | GPA: 3.93 / 4.00 [[certificate](#)] [[transcript](#)]
- Outstanding Student for the Assessment Period encompassing the Odd Semester 2021/2022 and the Even Semester 2021/2022 – [[certificate](#)]

SMK Telkom Malang

Graduated 2020

- Vocational High School in Software Engineering | Final Score: 89 / 100 [[skl](#)] [[exam](#)] [[intern](#)]
- Runner Up App MAGE Competition Institut Teknologi Sepuluh Nopember (ITS) – 2018 [[certificate](#)]
- Runner Up App INTERFEST Competition Telkom University 2019 [[certificate](#)]

Personal Project

QA-Hub

- Centralized AI-driven test management platform bridging manual & automated testing. Key features: multi-project smart repository (PRD RAG engine), UI-triggered test run control, and automated script self-healing/auto-retry.
- Publish link [[QA-Hub](#)], Code repository [[github](#)], Product requirements [[PRD](#)]

Motive

- Co-developed an AI-powered productivity ecosystem combining task management and journaling that leverages LLMs to generate personalized behavioral habit reports.
- Publish link [[motive-web](#)], Code repository [[github](#)]

QA Content

- Wrote articles on testing processes and tips, published on Medium.
- [Anisa Nur Sekar Arum – Medium](#)

Automation

- Created API automation articles tutorials using Mocha & Chai.
- [List: Series API Automation Using Mocha Chai | Curated by Anisa Nur Sekar Arum | Medium](#)

Courses

Bootcamp QA Intermediate by SanberCode

Aug 2023 – Sept 2023

- Learned about software testing strategy and technique [[Certificate](#)]
- Deepened API verification using Postman, Mocha framework, and Chai assertion engines. [Cypress](#), [Katalon](#), and [WebDriverIO](#)

Bootcamp QA Automation by TestAplikasiKamu

Feb 2023 – Mar 2023

- Learned about API testing using [Postman tools](#), [Mocha framework](#), and [Chai assertion](#)
- Learned about website UI testing [Selenium WebDriver python](#) and [Cypress](#)
- [Certificate](#) and [report score](#)

Skills

- **Methodologies & Core:** SDLC, STLC, Agile/Scrum, End-to-End (E2E) Testing, Functional Testing, UAT, Regression Testing, Exploratory Testing, Test Strategy & Planning.
- **Automation Frameworks:** Cypress (POM), Playwright (POM), WebDriverIO (TypeScript/JavaScript).
- **API & Database Testing:** Postman, Mocha & Chai, SQL Queries, MongoDB Compass.
- **Tools & Platforms:** JIRA, Allure Report, Git, NetSuite, ERPNext Frappe.

Organizational Experience

Google Developer Students Club (GDSC) Binus Malang - GDSC Relation Core Team

Sep 2021 – Oct 2022

- Coordinated multi-department communications and managed community relations to host the Weekend Talk Series events.
- Successfully orchestrated over 10+ IT-related technical events, engaging an aggregate audience of 400+ participants.
- Documentation: [[event](#)] [[role](#)] [[team-discussion](#)]
